

CASE NOTE REVIEWERS REQUIRED

NCEPOD study on Endometriosis

NCEPOD is undertaking a study to review remediable factors in the quality of care provided to patients, aged 18 and over, with a diagnosis of endometriosis.

We are looking for interested healthcare professionals with a working interest in the care of people diagnosed with endometriosis to join our multi-disciplinary group of Case Reviewers. We are looking to identify remediable factors in the quality of care received by patients and produce a national report with recommendations to improve the quality of care provided. Although case review meetings have begun (since early April), we are still looking for clinicians to join this group.

Case reviewers will be asked to attend meetings during which they will assess case note extracts and questionnaires and provide expert opinion on the quality of healthcare received by people with endometriosis. You would typically be required to attend/join a minimum of 4 subsequent case reviewer meetings at the NCEPOD offices in London. Case review meetings started in **April 2023**, and will run for approximately 6 months. We would provide training at your first meeting. The data collected during these meetings will form a major part of the study's final report. For each meeting attended, travel expenses will be reimbursed, and lunch provided.

We are looking for senior clinicians from a wide variety of specialties, including (and not limited to) obstetrics/gynaecology, general practice, surgery, reproductive medicine, anaesthesia, urology, radiology and pain specialists, and endometriosis specialist and general nurses.

We aim to recruit senior clinicians (grade ST6 and above or equivalent) to ensure that applicants have enough experience for the case note review. All applicants should be in current clinical practice.

Further information about this study including a copy of the study protocol can be found on the webpage www.ncepod.org.uk/endometriosis

If you would be interested in acting as a case note reviewer for this study, please send a copy of your CV (short version) via email to the contact details below.
