

CASE NOTE REVIEWERS REQUIRED

NCEPOD study on Emergency (non-elective) procedures in children and young people (0-18th birthday)

NCEPOD is undertaking a study to identify good practice and remediable factors in the delivery of care provided to children and young people (CYP) (0-18th birthday) undergoing emergency (non-elective) procedures under anaesthetic or sedation.

We are recruiting a multi-disciplinary group of healthcare professionals with a working interest in the care of this group.

Case reviewers will be asked to attend meetings during which they will assess case note extracts and provide expert opinion on the care young people receive. A training day is planned for the **13th September 2024** (if you are unable to make this date, training on an ad hoc basis is possible). You would typically be required to attend a minimum of 4 subsequent case reviewer meetings at the NCEPOD offices in London. It is anticipated case review meetings will run for approximately 6-8 months. The data collected during these meetings will form a major part of the study's final report. Travel expenses will be reimbursed.

We are looking for clinicians from a wide variety of specialties, including paediatric and adult surgeons (general and specialist), anaesthetists (general and specialist), emergency medicine clinicians, nurses, paediatricians, radiologists, critical care clinicians and operating department practitioners.

We aim to recruit clinicians from different clinical grades of at least ST6 or equivalent to ensure that applicants have enough experience for the case note review. Applicants should be in current clinical practice.

Further information about this study including a copy of the study protocol can be found on the webpage:

<https://www.ncepod.org.uk/Eps.html>

If you would be interested in acting as a case note reviewer for this study, please send a copy of your CV (short version) via email to the contact details below. The deadline for applications is the **6th July 2024**.
