

CASE NOTE REVIEWERS REQUIRED

NCEPOD study on Juvenile Idiopathic Arthritis (JIA)

NCEPOD is undertaking a study to review the quality of care provided to children and young adults 0 – 24 years of age with Juvenile Idiopathic Arthritis (JIA).

We are recruiting a multi-disciplinary group of healthcare professionals with a working interest in the care of this group.

Case reviewers will be asked to attend meetings during which they will assess case note extracts and provide expert opinion on the care young people receive. Training days are planned for the **14th September and 5th October 2023** (if you are unable to make this date, training on an ad hoc basis is possible). You would typically be required to attend a minimum of 4 subsequent case reviewer meetings at the NCEPOD offices in London. It is anticipated case review meetings will run for approximately 8 months. The data collected during these meetings will form a major part of the study's final report. Travel expenses will be reimbursed.

We are looking for clinicians from a wide variety of specialties, including rheumatologists (paediatric and adult), paediatricians, physicians, nurses, general practitioners, occupational therapists, physiotherapists, ophthalmologists, pharmacists, radiologists and orthopaedic surgeons.

We aim to recruit clinicians from different clinical grades of at least ST6 or equivalent to ensure that applicants have enough experience for the case note review. Applicants should be in current clinical practice.

Further information about this study including a copy of the study protocol can be found on the webpage:

<https://www.ncepod.org.uk/JIA.html>

If you would be interested in acting as a case note reviewer for this study, please send a copy of your CV (short version) via email to the contact details below.
