

## Examples of Impact

	Juvenile idiopathic arthritis	The findings have been embedded into GIRFT Paediatric Rheumatology.
	Endometriosis	NICE Guideline 73: Endometriosis: diagnosis and management – update on surgical care.
	Testicular torsion	Worked with GIRFT to produce a pathway for this group of patients.
	Transition to adult healthcare	One of the most referenced, talked about at every meeting, reports that we have done. No one piece of impact yet but we predict it will be long-lasting and has initiated lots of local change.
	Chemotherapy in children	Standardisation of a national treatment consent form and service specification.
	Acute pancreatitis	NICE Guideline 104: Pancreatitis.
	Tracheostomies	Development of standards with the Intensive Care Society.
	High-risk surgery	Development of the National Emergency Laparotomy Audit and the SORT risk prediction calculator.
	Cosmetic surgery	Evidence for the review of cosmetic surgery led by Sir Bruce Keogh.
	Acute kidney injury	NICE Guideline 148: Acute kidney injury: prevention, detection and management, and the NHS 'Think Kidneys' campaign.
	Chemotherapy in adults	Development of acute oncology services and national chemotherapy standards with Sir Mike Richards.
	Sickle cell disease	NICE Clinical Guideline 4: Sickle cell disease: managing acute painful episodes in hospital.
	Trauma care	Overhaul of trauma care – major trauma centres in the UK.
	Deteriorating patients	NICE Clinical Guideline 50: Acutely ill adults in hospital: recognising and responding to deterioration.
	Surgical mortality	CEPOD theatres and a reduction in out-of-hours operating.
